THE DANGERS OF EVOLUTION

part 2: "Problems With The Theory Of Evolution"

Does science prove mankind evolved from microbes to humans?

III. WHERE DID THE	THEORY OF	COME FROM?
A. "Evolution" th	eory:	
•	on, so that descendants dif	ge with passage of time, mainly as a result of fer morphologically and physiologically from ICAN HERITAGE DICTIONARY
B. "Evolution" ho	as several	
1	Origin of time, spac	ce & matter.
2	Origin of life.	
3	Origin of major "kir	nds" or species.
4	Variations within th	e "kinds". (THIS definition is scientific)

NATURAL SELECTION: The process by which traits become more or less common in a population due to consistent effects upon the survival or reproduction of their bearers. <u>It</u> is a key mechanism of evolution.

Spe-cies 'spesez,-SHez/, noun 1. BIOLOGY: a group of living organisms consisting of similar individuals capable of exchanging genes or interbreeding. — Dictionary.com

Va-ri-e-ty BOTONY: varieties are usually the result of selective breeding and diverge from the parent species or sub species in relatively minor way. — biologyonline.org/dictionary

C. What Darwin observed was micro add i.e. "Irreducible Complexity" (Michael Be	
IV. DO VARIATIONS AND MUTATIONS _	EVOLUTION?
A. God created everything according to Genesis 1:24 (NIV84) And God said, "Let the kinds."	their "" e land produce living creatures according to their
B. Mutations rarely, if ever, create anythi	ng
V. WHAT ABOUT	_ APE MEN?
A. We have been told humans evolv	ed from
B. "Missing Link" still	<u></u> !
C. Startling lack offo	r human evolution.
D. Could it be we've been	to?
can still be placed, with room to spare,	ical evidence we have found for human <u>evolution</u> inside a <u>single coffin</u> ." — Science Digest, 90 May 1982, p. 44
VI. CONCLUSION	
A. Can your philosophy answer these	questions?
B. Could it be that God is	ś
Genesis 1:27 NIV84) "So God <u>created</u> man him; male and female he <u>created</u> them."	n his own image, in the image of God he <u>created</u>
